

David Sunding is the Thomas J. Graff Professor of Natural Resource Economics at UC Berkeley, and is the Chair of the Department of Agricultural & Resource Economics. He is the Founding Director of the Berkeley Water Center, an interdisciplinary research unit of the Berkeley campus. Prof. Sunding specializes in environmental and resource economics, agricultural economics, water resources and environmental regulation. He has worked closely with many of California's water districts and the State to analyze issues of water resource allocation and financing.
